## Web Design

Whether you need a simple HTML site, customized Wordpress template, Wordpress plugin, or custom content management system that is key word optimised, Creative Pro-Source has done it and can do it for you. Dave Bailey has HTML5, Javascript, PHP, MySQL, CSS3 and Adobe Creative Suite experience.

This site uses Javascript and CSS with HTML5's video and canvas to display its video and images, but offers alternatives for older browsers using javascript and DOM manipulation. PHP and Javascript were used for the contact form. Wire frame and finished graphics were done and sliced apart in Illustrator. Dreamweaver, Photoshop and Premier Pro were also used.

Created for LinkSeen, LLC, This site uses a totally custom made Wordpress template, with its own CMS with admin pages and forms for managing site reviews, reviewers, thumbnail creation, and more. Wordpress, PHP, MySQL, Javascript, HTML, CSS, Dreamweaver, Photoshop, and Illustrator were used in its creation.

## Illustration

Dave Bailey started as a traditional media illustrator, pencil, pen and ink, oils, acrylic, and air brush. As the digital age unfolded, Dave was very quick to embrace it and has been a digital illustrator since 1985 on Amiga, Mac and PC platforms using Deluxe Paint, Lightwave, Photoshop, and Illustrator.
